

Assyrian Universal Alliance Foundation Donation Policy

At AUAF, we strive to preserve and promote Assyrian heritage and culture, and create positive change within the Assyrian community globally through social service, art, education, and humanitarian projects. We are committed to providing financial assistance to support the humanitarian needs of the Assyrian people in our ancestral homeland.

In addition to our own programs and projects, AUAF receives hundreds of requests each year from worthy organizations and individuals throughout the international Assyrian community. It's important to note that our resources are limited to the fiscal annual budget determined by the State of Illinois and we are unable to grant all of these requests.

There are times, however, when AUAF is able to help. Please read the guidelines below before submitting your request.
